

## Letter of Recommendation

For over a year, Czopyk & Co. Translation Office has prepared translations for various Japanese branches of ITOCHU Corporation through the Hungarian subsidiary of the company, ITOCHU Hungary Gazdasági Szolgáltató Kft.

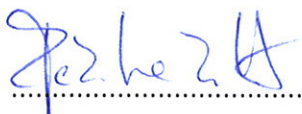

These English translations were mainly technical and legal in nature, with special emphasis on various aspects of power generation and distribution (contracts, licences issued by authorities, texts of relevant acts and government decrees, as well as detailed technical descriptions of thermal power plant, fuel supply, etc.).

Throughout the over a dozen translation projects carried out for ITOCHU, Czopyk & Co. remained faithful to its commitment to quality, was keen on meeting even the strictest deadlines, and showed flexible approach to the challenges imposed on it, making our cooperation with them smooth and efficient. We recognised, as a special strength of the office, their ability to carry out express translations.

We are positive that we will continue to choose Czopyk & Co. as our long-term translation partner, and we are confident in recommending you Czopyk & Co. for any kind of legal and/or technical translation.

Should you require more information on our cooperation with Czopyk & Co., please feel free to contact the undersigned.

Budapest, May 2008

Zsolt Fekete  
Manager
